

Reflection Questionnaire

- 1) How does this project impact your practice (or organizational role) and improve patient care?
- 2) List the two biggest barriers to achieving or sustaining improvement you encountered in this project?
- 3) Describe your organization's process for developing its action plan. Did this process work? How would you improve this process?
- 4) Did you take actions to improve your performance beyond the strategies listed in the action plan?
- 5) Rate the usefulness of the educational interventions and describe additional education that may support ongoing improvements in HPV vaccinations:
- 6) Describe your process for questioning patients/parents about vaccination status and if this process changed over the course of the improvement activity:
- 7) Do you have a system to provide educational materials to patients who refuse vaccinations? If so, please describe:
- 8) What educational materials do you provide your patients/their parents? (Do you share print resources? Do you rely on counseling alone?):
